PROFESSIONAL SUMMARY

Software Developer with 9 years of experience delivering scalable web applications and enterprise solutions using modern technologies including **Next.js**, **React**, **Angular**, **Wordpress, Node.js**, **Express.js** and **Supabase**. Skilled in translating business requirements into maintainable software, collaborating with cross-functional teams, and building products that support business growth.

TECHNICAL SKILLS

- **Language**: JavaScript, TypeScript, PHP, HTML5, CSS3
- **Frontend**: Next.js, React, Angular, Tailwind CSS
- **Backend**: Node.js, Express.js, Supabase
- **Database**: Supabase (PostgreSQL), MongoDB

PROFESSIONAL EXPERIENCE

Software Developer
Stairpay
Feb 2025 - Apr 2026 · 1 yr 3 mos
London Area, United Kingdom · Remote

- Supported the digital journey for prospective Shared Ownership residents, developing reusable affordability calculators and signup plugins with Next.js, TypeScript and Supabase to enable online affordability checks and registrations.
- Addressed the need for centralised resident self-service, building a Next.js and Supabase Resident Portal for managing documents, payments, affordability checks and property information.
- Improved property and applicant management for Housing Associations, developing a centralised Listings Management Platform covering listings, applicants, eligibility checks and analytics.
- Supported the delivery of platform features throughout my tenure that contributed to securing partnerships with 8 Housing Associations, including one of the UK's largest providers.

Software Developer
Twenty7tec
Oct 2021 - Jan 2025 · 3 yrs 4 mos
London Area, United Kingdom · Remote

- Supported a large-scale communication platform used for multi-channel client campaigns across email, SMS, and WhatsApp.
- Developed and enhanced the platform using Angular, Node.js, MongoDB, and Serverless, including campaign builders, scheduling, and message delivery functionality.

- Built reusable React/Next.js plugins for mortgage calculators, insurance calculators, and calendar functionality, enabling faster delivery of branded client solutions.
- Collaborated with distributed cross-functional teams to deliver scalable, production-ready features and client solutions across multiple international markets.

Software Developer
Captivate Chat
Jun 2018 - Nov 2021 · 3 yrs 6 mos
London Area, United Kingdom · Remote

- Worked on a SaaS chatbot platform that enabled businesses to engage with and manage conversations from their websites.
- Built and maintained an embeddable chatbot widget using MongoDB, Express.js, Node.js, and Angular, later migrating the frontend to React to improve the application's maintainability and user experience.
- Developed the web-based chat management platform that allowed clients to monitor and manage live chatbot conversations, building frontend features and backend functionality across the MERN/MEAN stack.
- Integrated the chatbot widget and management platform to provide clients with a complete workflow for capturing and managing website conversations, supporting 10+ clients throughout the COVID-19 pandemic.

Software Developer
Siro Solutions
Sep 2017 - Sep 2018 · 1 yr 1 mo
Austin, Texas, United States · Remote

- Worked as part of a growing WordPress development team supporting multiple client websites and projects.
- Built and customized responsive WordPress websites using Divi, Elementor, HTML, CSS, JavaScript, and PHP based on client designs and functional requirements.
- Collaborated directly with existing clients to understand change requests and translate their requirements into website enhancements, bug fixes, and new features.
- Helped deliver 50+ client websites and ongoing website improvements throughout the year, increasing the team's capacity to support growing client demand.
